ABSTRACT

The main issues discussed are: 1) What are the Islamic Islamic Values implemented in the Adiwiyata Mandiri Program in SMP Negeri 17 Palembang, 2) The impact of the Adiwiyata Mandiri program on the Caring Attitudes of students at SMP Negeri 17 Palembang. This study aims to: 1) Analyze and describe the Islamic Islamic Values implemented in the Adiwiyata Mandiri Program at SMP Negeri 17 Palembang. 2) Analyzing and describing the Impact of the Adiwiyata Mandiri program on the Caring Attitudes of students in Palembang 17 Public Middle School. This study uses a qualitative approach to the type of case study research. Data sources use primary and secondary data. Data collection techniques by observation, interview and documentation. in analyzing data, researchers take an interactive model as its presentation. To get good results, researchers used data validity tests in the form of credibility, transferability, dependability and confirmability.

The results of research at SMP Negeri 17 Palembang include: 1. Islamic values implemented in the Adiwiyata Mandiri program are the values of environmental care, the value of responsibility, and the value of discipline to protect and preserve the environment. This is found in the garbage bank program. Then the value of honesty and the value of social care that is in mutual cooperation. This is in the Friday clean program. Then the creative value of utilizing natural resources. This is found in the environmentally friendly supporting facilities management program 2. The impact of the Adiwiyata Mandiri program is that students have an attitude of awareness to care for the environment. Then students have a soul of creativity in utilizing natural resources available, students have a disciplined attitude towards the environment, and students have mutual cooperation.

Keywords: Adiwiyata and Environmental Care
