

Abstrak

Orang tua sangat kuat dalam membentuk atribut anak muda. Instruksi orang tua adalah sumber utama dalam keberadaan manusia karena pelatihan mengambil bagian penting dalam mengembangkan rasa hormat manusia, menjaga dan menciptakan kualitas sosial. Perkembangan remaja tingkat sekolah menengah biasanya diawali dengan kecenderungan secara tidak sadar senang menyendiri dan ingin bersosialisasi dengan banyak orang. seseorang yang mampu memahami dirinya sendiri dengan baik, akan mudah dalam melakukan penyesuaian dengan masyarakat, menjadi teruji dan memiliki dasar moral yang kokoh. Tujuan dari penelitian ini, untuk mengetahui bagaimana keteladanan orang tua siswa dirumah pada masa pandemic covid 19 di SMP Islamy Palembang, untuk mendapatkan data memperoleh data sikap sopan santun siswa SMP Islamy Palembang, dan untuk mengetahui apakah ada pengaruh keteladanan orang tua terhadap sikap sopan santun siswa dirumah pada masa pandemic covid 19 SMP Islamy Palembang.

Penelitian ini penelitian kuantitatif menggunakan teknik analisa statistik sederhana menggunakan rumus presentase dan korelasi product moment. Populasi dalam penelitian ini berjumlah 37 siswa. Teknik pengambilan sampel dilakukan dengan teknik *random sampling*. Sampel yang diambil semua populasi yang berjumlah 37 siswa.

Hasil penelitian ini berdasarkan penghitungan product moment diperoleh nilai $r_{xy} = 0.427$, angka ini menunjukan tingkat kategori yang sedang, karena angka ini berada pada rentang antara 0.40-0.599 yang berarti terdapat korelasi tingkat yang sedang. Dan berdasarkan prosentase hanya 18% saja pengaruh keteladanan orang tua terhadap sikap sopan santun siswa dirumah pada masa pandemic covid 19 SMP Islamy Palembang, sedangkan 82% dipengaruhi oleh faktor lain.

Keywords: Keteladanan Orang tua, Sikap Sopan Santun Siswa

Abstract

Parents are very strong in shaping the attributes of young people. Because parents invest more energy with their children. Parental instruction is the main source of human existence because training plays an important part in developing human respect, maintaining and creating social qualities. In the process of exemplary development, parents have an important meaning because they have an influence on the process of child development. The development of high school-level adolescents usually begins with a tendency to subconsciously like to be alone and want to socialize with many people. someone who is able to understand himself well, will be easy to make adjustments to society, be tested and have a solid moral basis.

The purpose of this study was to find out how the example of parents of students at home during the covid 19 pandemic at SMP Islamy Palembang, to obtain data on the attitude of politeness of students at SMP Islami Palembang, and to find out whether there was an effect of parental example on the attitude of politeness of students. at home during the COVID-19 pandemic at SMP Islamy Palembang. This research is quantitative research using simple statistical analysis technique using percentage formula and product moment correlation. The population in this study amounted to 37 students. The sampling technique was done by random sampling technique. Samples were taken from all the population which amounted to 37 students.

The results of this study based on the calculation of the product moment obtained a value of $r_{xy} = 0.427$, this figure indicates a moderate level of category, because this figure is in the range between 0.40-0.599 which means there is a moderate level of correlation. And based on a percentage of only 18%, the influence of parental example on student manners at home during the COVID-19 pandemic at SMP Islamy Palembang, while 82% was influenced by other factors.
