Title : The Relationship between Self-Disclosure with the Interpersonal Relationship of Children-Parents in the Students of MA Aulia Cendekia Palembang*

*This research was conducted with the aim of knowing the relationship between self-disclosure with interpersonal relationships between parents and children in MA Aulia Cendekia Palembang students. The population in this study were the students of MA Aulia Cendekia Palembang for the year 2022-2023, totaling 229 students. The sample in this study were 139 students, with the sampling technique in this study used the Random Sampling method. Data collection uses a scale of interpersonal relationships and self-involvement scale. This study uses a quantitative method of correlation with Spearman analysis techniques. All statistical calculations were carried out using the SPSS version 25 for windows. Based on the results of the research analysis, the correlation coefficient between self-disclosure with interpersonal relations was obtained by  $r = 0.438$  with a significant value of 0.000 where  $p = <0.05$ . So there is a relationship between self-disclosure with the interpersonal relationship between parents and children in the MA Aulia Cendekia Palembang students.*

**Keywords** : *Self-disclosure, Interpersonal Relationship, Students*
