*Subdistrict 20 Ilir DIV Palembang City*

*This research aims to determine hedonistic lifestyle on teenagers in Subdistrict 20 Ilir DIV, Palembang City. This research method is qualitative with a descriptive design. The data collection techniques used were observation, interviews and documentation. The aim of this research is to find out about the hedonistic lifestyle as an impact of teenage relationships in Subdistrict 20 Ilir DIV, Palembang City. According to Plummer (1983) lifestyle is an individual's way of life which is identified by how people spend their time (activities), what they consider important in their lives (connectedness) and what they think about the world around them, it is concluded that teenagers who live with A hedonic lifestyle is a teenager who views pleasure positively and will take or exploit opportunities to achieve the desired pleasure or desire. One of the things that shapes behavior in teenagers is the result of them socializing with the people around them. Teenagers are the generation most easily influenced by the development of modernization, one of the impacts of the development of modernization has been making teenage behavior more hedonistic.*
