Title : *Dynamics of Schadenfreude among Students at the Faculty of Social and Political Sciences Baturaja University*

This research aims to understand the dynamics of schadenfreude in social and political science students at Baturaja University and the factors that influence the dynamics of schadenfreude in students. This research uses qualitative research methods with a descriptive approach. In selecting subjects, researchers used purposive sampling techniques. The subjects in this study were 3 subjects with a history of having experienced or currently experiencing the dynamics of schadenfreude among social and political science students at Baturaja University. The results of this research are that the three subjects have different schadenfreude dynamic factors and the same ways of dealing with them. The three subjects have the same way of dealing with feelings of schadenfreude, this is proven by the subjects being normal about it.

Keywords: *Dynamics, Schadenfreude, Students*
